Secretary Pruitt,

Congratulations on your appointment. By my first hand account, dealing with the Corps of Engineers & EPA. It looks like you will have your plate full!

I've had a request in to the St. Paul Army Corps of Engineers for a simple AJD for 601 days, with no response.

Please read the attached letter and information. I think this is exactly why President Trump, put you in charge of this agency.

We all know its broken. But as my father always said, It takes a good man to "fix it"!

Please have some one contact me.

Pete Thorson

Meadow's Business Park
